

STATE OF NEW YORK  
PUBLIC SERVICE COMMISSION

CASE 15-E-0302 - Proceeding on Motion of the Commission to  
Implement a Large-Scale Renewable Program  
and a Clean Energy Standard.

NOTICE EXTENDING COMMENT PERIOD

(Issued June 28, 2023)

By letter filed June 22, 2023, Independent Power Producers of New York, Inc., New York State Building & Construction Trades Council, and New York State AFL-CIO (collectively, the Petitioners) requested an extension of the comment period that was established in the Commission's Order Initiating Process Regarding Zero Emissions Target (Order) issued May 18, 2023. In accordance with Ordering Clause 2, comments on the questions contained in the Order are to be filed by July 17, 2023.

The Petitioners state that the questions contained in the Order raise significant and complex issues that require additional time to adequately address. Further, the Petitioners state that due to the Juneteenth and July 4 holidays, and the unavailability of experts assisting in developing responses to the questions, a 30-day extension will provide Petitioners the necessary time to seek industry consensus and develop robust comments for the Commission's consideration.

**PLEASE TAKE NOTICE** that the date for submitting comments in response to Ordering Clause 2 of the Order, is hereby extended until **August 16, 2023**.

**PLEASE TAKE FURTHER NOTICE** that the date by which the Department of Public Service staff, in consultation with the New York State Energy Research and Development Authority, must

convene a technical conference as required by Ordering Clause 3 of the Order is extended until **January 12, 2024**.

(SIGNED)

MICHELLE L. PHILLIPS  
Secretary
